SKILLS

Research Methods: User Interviews, Qualitative Research, Experimental Design, Research Synthesis, Thematic Analysis, Behavioral Data Analysis, Beta Testing, Research with Children, Literature Review & Synthesis, APA-Style Reporting
Tools: SPSS, R, SQL, Python (Matplotlib, Seaborn), Jira
Collaboration: Stakeholder Communication, Translating Insights into Product Decisions, Cross-Functional Collaboration, Agile

EXPERIENCE

Product Management Intern May 2024 – Present
Voce Social *Remote*
- Recruited and spoke with 30+ student executive board members across 10 universities, including 10 in-depth user interviews, to map the biggest pain points in running student organizations.
- Synthesized interview findings into user needs that shaped the app's core features ahead of its Fall 2026 launch.
- Turned interview and beta tester feedback into Jira backlog priorities; backlog changes contributed to a 25% increase in user retention and 30% faster development cycles.

Student Researcher, Developmental Psychology Sep 2026 – Present
Wellesley College, Psychology Department *Wellesley, MA*
- Designed and ran an experiment with 29 children (ages 3-5) testing whether fantastical vs. realistic story contexts change prosocial behavior, measured through sharing.
- Conducted study sessions with preschoolers, maintaining procedural consistency across participants while adapting instructions to young children's attention and comprehension.
- Authored an APA-style empirical paper covering hypotheses, method, statistical analysis, and discussion of findings.

AI Research Assistant Mar 2026 – Sep 2026
Wellesley College, Korean Department *Wellesley, MA*
- Reviewed academic papers and conference proceedings on AI-assisted language learning to identify which tools and practices improve learner outcomes.
- Translated research findings into recommendations to redesign the Korean language curriculum, connecting learner needs with faculty teaching goals.

Research Assistant Sep 2024 – May 2025
Wellesley College, Computer Science Department *Wellesley, MA*
- Analyzed 22,000+ behavioral records from Snap'N'Go, a campus crowdsensing app, to test when and where students complete tasks; found an 11 AM-3 PM peak in completed tasks and presented findings as a poster at Wellesley's Ruhlman Conference (2025).

Data Science Intern Jun 2025 – Sep 2025
Consumer Insights Partnership *Atlanta, GA*
- Cleaned and organized customer engagement datasets across multiple client accounts, preparing reliable data for the analytics team's reporting.
- Observed sprint planning meetings to understand how cleaned data was translated into recommendations and product changes for clients.

PROJECTS

Byte By Bite Mar 2025 – Present
Team Lead, User Researcher
- Led a student team building a food journaling app with campus dining services; conducted interviews with students to identify needs and guide features like personalized tracking.

ACTIVITIES & LEADERSHIP

Raise the Voices Feb 2022 - May 2025
Volunteer Coordinator
- Managed 50+ volunteers and designed their onboarding and training; built nonprofit partnerships for outreach campaigns that increased awareness and donations.
